You must see this 6 bed, 4 bath Castle Rock home with an Office, Sun Room, Media Room and extended Patio with Pergola! The moment you walk in you'll feel right at home with the Bright and Open feel of this Hemingway plan by Richmond. A perfect Front Office with Barn Doors open up so many possibilities for working from home. Make your way to the main entertaining area of the home, it won't disappoint. A large living room has a cozy fireplace and a picture window that overlooks the extended patio and Pergola out back. The open concept plan really shines as you look across the Gourmet Kitchen featuring stainless appliances, double ovens and a gas cook top. In the heart of it all, a Kitchen Island fit for any size gathering, a true entertainers dream. Just off the kitchen is a Sun Room that offers plenty of natural light and feels larger than it is due to the vaulted ceilings! Upstairs will definitely surprise you. A Large Loft connects all of the rooms and offers options for study, homework, games and movies. A great place for sleepovers! Secluded furthest away from the loft is the Primary Suite. Escape the day to a well appointed primary bath with a beautiful oversized walk in shower, dual sinks and an incredible closet. 3 additional bedrooms, an upstairs laundry and full hall bath complete the package! Venture on to the finished basement that offers more than you could want. 2 additional bedrooms allow for all of the friends or family to stay over.
